Explanation Guide

Pricing - The same premium is charged for either an Expanded Protection mortgagee policy (EMP) or a Standard ALTA mortgagee policy (MP). The premium for all mortgagee policies can be found in the **blue** column opposite the proposed amount of insurance.

The same premium is charged for either an Expanded Protection Owner Policy (EOP) or a Standard ALTA Owner Policy (OP). The price for all owner policies can be found in the **green** column opposite the proposed amount of insurance.

If the policy amount exceeds the amount shown, compute premium at next higher increment. Example: Loan amount is \$100,050 – compute at \$101,000.

Note: Minimum price for loan policy is \$170; minimum price for owner policy is \$245.

Expanded Protection Policies - These policies may be issued only where the property is 1-4 family residential or condominium property. These policies cannot be issued for vacant land, commercial loans or construction loans.

Short Form Policies - Short Form MPs may be used only where the property is 1-4 family residential or condominium property. These policies cannot be issued for OPs or commercial loans.

Survey Exception - The “survey exception” can be deleted, without additional charge, from an MP where the property is 1-to-4 family residential or condominium. The survey exception cannot be removed without approval from VATC for owner policies or commercial properties.

Construction Loans

- a) **Commercial:** Use standard ALTA long form policy only. Survey exception must remain in policy unless removal is authorized by VATC.
- b) **Residential:** Use standard ALTA policy only. A standard protection Short Form Policy with a construction mortgage endorsement may be issued. Survey exception language may be deleted. Upon payment of additional premium, the policy can be converted by endorsement to an Expanded Protection Policy when the loan is converted from construction loan to permanent financing.
- c) **Refinancing:** For construction loans, please call VATC for rates.

Condominiums - Charge the appropriate premium amount located opposite the proposed amount of insurance.

Premium Computation for Simultaneous Issue of Mortgagee Policies (MP) and Owner Policies (OP).

- a) **Amount of OP is equal to or exceeds MP:** When an OP and MP are issued in the same transaction and the amount of the OP is equal to or greater than the amount of the MP, the premium is determined by locating the “Owner Premium” (the green column in the rate book) for the purchase price or the appraised value. The price of the MP is included in the OP rate. There is no additional fee for simultaneous issue. *The Owner Policy must be issued within sixty (60) days of the Mortgagee Policy for the simultaneous rate to apply.*
- b) **Amount of MP exceeds OP:** When an OP and MP are issued in the same transaction and the amount of the MP exceeds the OP, the premium can be determined by using the calculator in our PrepExpress® software or by calling VATC.

Vermont Permit Certificate Endorsement - This endorsement may be issued for Expanded Protection Mortgagee Policies (1-to-4 family residential properties) without additional charge. The endorsement may be issued with standard loan policies and standard or expanded protection owner policies on 1-to-4 family residential properties for a premium of \$200. This endorsement may not be issued for commercial properties without prior approval from VATC.

Bulk Rate (4 or more properties) - Please call VATC for rates.

Mortgage Modification - Please call VATC for rates.

Refinance Rates - Where a title insurance policy has been issued within the past ten (10) years, the refinance rate is 60% of the published rate, except in construction loan situations. For construction loans, please use the PrepExpress® calculator or call VATC for rates. **Note: A minimum charge of \$170 applies in all refinance situations.**

**PREMIUM COMPUTATIONS ARE
AVAILABLE FROM VATC ON REQUEST.**
